To whom it may concern:

I am happy to serve as a reference for L.D. Perry for his work with children and youth in church. L.D. attends the Union Grove Baptist Church across the street from our South Plains Presbyterian Church. For the past two years, he has played an important part in the week long Vacation Bible School the churches do together. His role has been to help teach the youth, a group of 7th to 12th graders ranging in size from 8-12 kids.

I have observed him make excellent presentations, interact productively in discussion and talk informally with individuals. He seems also to enjoy the younger children. South Plains is Caucasian and Union Grove is African American. L.D.'s experience with interracial groups has been especially helpful.

I hope you will give him every consideration.

Sincerely,
